

Negru Ioan

Front-End Developer

About Me

Front-end development is my passion and career goal. To enhance my skills and gain a deeper understanding of modern web technologies, I have completed personal projects and online learning courses. My strong foundation in HTML, CSS, and JavaScript allows me to create interactive and responsive web interfaces. In addition to communicating effectively, I have the ability to quickly adapt to new technologies and environments.

Skills

- Fundamental skills in creating responsive web interfaces and implementing designs
- Responsive to feedback and capable of quickly learning new technologies.
- Able to work in a team and contribute to collaborative projects.
- Eager to learn and develop my skills in a professional environment.

- Redux

Projects

Filmsero

React-based project with SCSS and React Context showcasing movie information, trailers, and recommendations. The user-friendly interface enables seamless movie search, filtering, and an immersive cinematic experience.

Riga Crypto

React project with Ant Design, CSS, and Redux for cryptocurrency information, prices, and news. Intuitive interface with charts and tables for easy monitoring.
