## WORK EXPERIENCE

### Entry-level Front-End Developer

#### Cedacri International, ION Investment Group

📅 February 2023 - current

📍 Chisinau

- Designing and implementing visually appealing user-friendly interfaces for web applications.
- Writing clean efficient and well-documented frontend code.
- Ensuring cross-browser compatibility and responsiveness in applications.
- Collaborating with cross-functional teams including designers and backend developers to achieve project goals.
- Participating in code reviews and providing constructive feedback.
- Optimizing applications for maximum speed and scalability
- Conducting usability testing and integrating feedback into the development process.
- Conducting thorough testing to guarantee highquality bug-free deliverables.
- Collaborating with quality assurance teams to address and resolve reported issues.
- Communicating technical information effectively to both technical and non-technical stakeholders and providing regular project updates.

### Personal Projects

In my free time, I undertook various personal projects to enhance my front-end development skills and showcase my creativity. This included designing and developing webpages and applications from concept to completion. Notable achievements include:

[Shoperz](#): Online store built with a collaborator;

[Stockz](#): Platform offering advanced stock info;

[Endgames](#): Useful information about free games;

## OBJECTIVE

I'm a front-end developer with comprehensive programming knowledge, specializing in crafting webpages, developing applications, and building web services. Dedicated to creating immersive user experiences and contributing high-quality work to innovative projects. Seeking a role to leverage my skills and enhance workflow in a dynamic team.
